Subject: Re: Ladysmith Variance

Jake; I solved the puzzle. Looked at some old documents on the Churchill Property and found the designated area for the park, which is on the opposite side of Rocky Creek from my property. Originally I thought all the wooded area on the slope would be park. The wooded area is nice to look at but really nothing but a fire hazard. Last summer when the temperature went over 40c, along with the fire back in the bush, I was concerned about the safety of my home. Future forecasts do not look any better.

> Reading a variance delivered to my door on McKinley Rd. The wording is rather ambiguous; “ the west 1/2 of the south 1/2” of lot 1260. It should be shaded in on the plot plan to better define the area. To those working on the project it may make sense but not myself or others I’m sure. As it borders my property; of course I am curious.
