Victor/ strata president of crystal court complex  
711 Malone road

We are all in agreement here, we are against and do not support telacom tower in our backyard of complex .as we are the most , of all people !will have tower directly against the back of townhomes.

And will see daily and do not want added radiation from towers. No thank you!

Victor

Good Evening:

May we kindly request your name, address and phone number? We would like to arrange a time to discuss your comments.

Please note that we completed multiple newspaper notices, postage of signage (as you noted) and also a large mail out to nearly 700 addresses as provided by the municipality. I can confirm that school staff were notified as they attended a public meeting that we also hosted and confirmed receipt of our notice.

I have cc'd the municipal contact and ISED in case they wish to top up.

Hello I am writing on behalf of crystal court complex as strata president.

I got this email recently about a tower with proposal to Install almost attached to our complex

- I did not receive notice other then a sign posted on city property. But I have been approached several times from concerned neighbouring houses.

- I work for school board also and school was not notified, as community spoke with principal,

Where is the notice of proposal?? We have 35 units in our complex and not many people seem to know about it?

Other than word of mouth. Is there a complaints Process? We do have concerned residents as tower will literally over top of our housing, we don't feel safe nor approve of?

Can you please send more info ? So I can review ?

Strata president and owner:

.neighbours are not ok with eye sor nor radiation !

Thank you? I gratefully wait for more info?
