STAFF REPORT TO MUNICIPAL SERVICES COMMITTEE

From:

Erin Anderson, Director of Financial Services

Date: File No:

November 18, 2016

Operating & Capital Budgets – as of October 31, 2016

RECOMMENDATION(S):

That the Committee:

- 1. Receive the financial report for the period ending October 31, 2016 for information purposes.
- 2. Direct Council to amend the Financial Plan for the Water and Sewer Fund to allocate funds from debt payments to offset operational expenses.

PURPOSE:

RE:

The purpose of this report is to continue to inform the Municipal Services Committee of the financials.

INTRODUCTION/BACKGROUND:

Continuing with the objective of transparency and providing good information to Council and the taxpayers, this report is completed to provide regular financial information. This is the third report for the year 2016 and will be the last interim reporting to the Committee. Staff will focus on completing the 2016 Financial Statements and prepare for the annual audit. The audited financial statements will be presented to Council in April of 2017.

Overall

The Town is forecasting to be under budget at year-end. Each of the respective funds are projected to be within budget, though both sewer and water operations will require the use of funds budgeted to debt payments to be within budget.

Capital expenditures up to October 31, 2016 were \$6.021 million which is 24% of the budget allocated to all capital projects in 2016.

OPERATING BUDGET

As shown in Table 1, the Operations Budget with Projections to December 31st show an overall projected surplus due to un-issued debt payments.

Revenue - Taxes

Projected to be on budget

The 2016 annual property taxes were levied in May. There were a total of 3 supplemental adjustments, resulting in a net decrease in taxation of \$699.

Revenue - Water & Sewer Parcel Taxes

Projected to be \$5k above budget

There were a total of 22 new lots registered that could connect to the Town's water service and 1 lot that could connect to sewer service. These new lots resulted in additional parcel tax revenues.

Revenue - Water, Sewer & Solid Waste Fees

Projected to be \$43k above budget

The Utility billings (water, sewer and garbage) are billed up to the end of September. Water revenues continue to be higher than budgeted for each of the quarters, resulting in a

forecasted surplus of \$25k. This additional revenue is expected to partially offset the additional expenses in the Water utility (discussed later in this report). Flat-rate charges, such as sewer revenues, are expected to remain on budget. Solid waste (garbage, recycling & organics) will be greater than budget projections by the end of the year, though this additional amount will be reserved as directed.

Revenue - Other Fees & Charges

Projected to be \$190k above budget

- Overall, Parks, Recreation & Culture revenues, especially the recreation programs are trending higher in 2016 than 2015 and are expected to exceed budget by year end by approximately \$20k.
- Cemetery revenue is expected to be above budget by \$10k at year-end, but it has a corresponding expense that offset increases in revenue.
- Facility Rentals revenues are less than the same time in 2015 due to the adjustment in the interest rate on the debt for the RCMP detachment. A portion of the debt is paid by the Federal Government through the RCMP lease; hence a reduction in interest rate translates to a reduction in lease payments. There is a corresponding expense reduction to offset this loss in revenue.
- Fees from Licences (Dogs and Business Licences) has exceeded budget by \$4k.
 Since most of these billings occur early in the year, this number is not expected to increase significantly by the end of the year.
- There is an expected \$90k refund from the RCMP due to the rebate of the 2014 Close Circuit Video Equipment installation. It is expected that these funds will be reserved for future capital upgrades at the RCMP detachment.
- General and Miscellaneous revenue includes the revenues from property tax searches and administration fees. At year end, it is anticipated that this area will be \$9k greater than budget.
- Subdivision, building inspection, and planning permits and fees continue to be significantly greater in 2016 than in 2015. The Fortis Franchise fee received is half of what was budgeted. The remaining amount will be realized in 2017. Overall, Permits & Fees are nearly \$50k over budgeted and are forecasted to be nearly \$75k greater than anticipated by year-end.

Revenue - Penalties & Interest on taxes

Projected to be \$6k above budget

The 2016 property taxes were due July 4, 2016. At that time, just over 94% of the property owners paid their taxes on time. In accordance with the legislation, a 10% penalty was applied to all accounts with outstanding 2016 taxes.

Interest amounts accrue daily based on a rate prescribed by the Province.

Revenue - Operating Grants

Projected to be \$22k above budget

The Small Communities grant received from the Province was nearly \$16k greater than budgeted resulting in the forecasted balance exceeding budget.

Revenue - Investment Income

Projected to be \$46k above budget

The Waste Water Treatment Plant construction was delayed in 2016, resulting in funds set aside to fund the construction accruing investment income.

Expenses - General Government Services

Projected to be \$51k under budget

The expenses for general government services are on budget, though significantly greater than in previous years. This is due to making a budgeted principal payment of \$250,000 towards the debt on the properties at Buller and 1st Avenue. Administration charges are greater due to the overlap between a new employee and a retiring employee. Human Resource expenses are greater due to recruitment costs in 2016, though legal costs are down corporately. Some savings in staff time are expected to be realized by year-end, though additional expenses were incurred to set up new staff and create new office space.

It is expected that this area will offset the additional expenses in other areas.

Expenses - Protective Services

Projected to be \$12k under budget

The overall protective services area is under budget.

Policing costs are greater due to the RCMP membership at full municipal strength. The debt on the RCMP detachment will be less by the end of the year as there has been a decrease in the interest rate. The offsetting lease payment has decreased as a result. It is also expected that the RCMP per-member costs will be greater than anticipated due to the adjustment for the Close Circuit Video Equipment. The Town has requested reimbursement for the CCVE installation, though it will be billed back through the sharing of costs by all of the municipalities with populations between 5,000 and 15,000 and expensed through the permember billing.

The Fire Department is expected to be slightly under budget. Any savings here will be rolled into the Fire Department Reserve.

Bylaw Compliance and Animal Control are expected to be under budget as funds allocated for additional bylaw compliance hours to complete a bylaw compliance strategy did not occur.

Expenses - Transportation/Public Works

Projected to be \$62k above budget

Storm water infrastructure failures have resulted in more staff time, equipment use and materials used to repair the breaks.

Public Works operations is trending higher than anticipated in the budget. Much of this work is the result of the crews performing routine repairs and maintenance rather than capital projects as in prior years. Based on this trend, this area is expected to be over budget by year-end.

Expenses - Development Services

Projected to be \$44k under budget

The Development Services area is under budget. Not all projects were completed in 2016. Fewer custom streetscape banners were produced, though the funds are expected to be used in 2017. The Waterfront Area Plan project is expected to continue into 2017.

Expenses - Solid Waste

Projected to be \$34k under budget

The expenses for solid waste are expected to be under budget by year end.

Expenses - Cemetery Operations

Projected to be \$4k under budget

Cemetery expenses are trending higher than anticipated though much of these costs are offset with the corresponding revenue.

Expenses - Parks

Projected to be \$7k under budget

Parks services is currently under budget compared to 2015. This is partially due to the Parks crews working on capital projects, specifically the downtown garbage cans.

Expenses – Recreation & Culture Services

Projected to \$7k over budget

Overall, this department is roughly on budget, though some areas, such as Facility Maintenance, are seeing greater expenses in 2016 versus 2015, for the period ending July. Extending the pool shut-down by 4 days will see additional cost savings, though minimal revenues will also be lost during this time.

Staff on extended absences has put pressure on the wages budget. It is expected that this area will be slightly over budget by year-end. Additional revenues are also expected which will offset any increases in expenses.

Expenses - Sewer Services

Projected to be \$69k over budget

The sewer operations has almost met budget, though there are still two months of costs to incur. Cost for sewer treatment have exceeded budget due to after-hours call outs to the plant and additional work solving problems with the plant commissioning, as well as costs on the lift station maintenance and composting. It is expected that the sewer operational costs will be over budget by \$69k. Unused funds allocated to sewer debt payments can be utilized to cover the additional costs.

Expenses – Water Services

Projected to be \$193k over budget

At the end of October, water operations exceed the budget. Water operations are expected to be significantly over budget. Pressure Reducing Valve (PRV) infrastructure failures required additional staff time to complete repairs. The access road to the water system required immediate repairs as well as vegetation control surrounding the dam. The water meter at Stocking Lake required urgent repairs which also added to the overall water expenses. Additional expenses in advertising, legal costs for negotiating water servicing

agreements and other contract services, such as leak detection consultants, have increased the operational expenses.

Included in the water services budget was funding to pay for the interest payments on the new Water Filtration plant which has yet to be constructed. These budgeted water funds will be used to offset the increased operational costs.

Expenses - Debt Payments

Projected to be \$478 under budget

As mentioned previously, full year debt payments for the Waste Water Treatment Plant and the Water Filtration Plant were budgeted. Not all of the funds will be utilized in 2016, resulting in a substantial surplus. This amount includes an accrual for long term debt payments.

The Waste Water Treatment Plant is in the commissioning stage of the project. The completion of the project was later than expected, which has resulted in additional monthly consultant fees. It is expected that additional funds will be required. These funds could come from additional projects that have not started. A full report will be provided to Council at a future date detailing any expected additional costs.
