

CERTIFICATION OF DESIGN

I, _____, a Professional Engineer registered in the Province of British Columbia, hereby certify that the works, as herein set out on the attached drawings entitled.

have been designed in accordance with the Town of Ladysmith's Engineering Standards and Specifications, and in accordance with good engineering practice where such design is not covered by the Town of Ladysmith's Engineering Standards and Specifications.

I have been retained to provide design, supervision, inspection, as-built drawings, and final certification for this project by:

(Name of Client)

I am satisfied that in the contractual mandate which exists between myself and my client, the terms of reference will permit me to render a level of supervision of the construction work which will allow me to put my name and seal to the "Certification of Works" required by the Town of Ladysmith, a sample copy of which is attached to this document and initialed by me.

In the event that my client releases me from this project, or in the event that I find the terms of reference do not permit me to render a level of supervision of the construction work which will allow me to put my name and seal to the form of certification required by the Town of Ladysmith, I will notify the Town of Ladysmith within twenty-four (24) hours verbally and follow it up with written confirmation and clarification.

Signed this _____ day of _____ 20 _____.

(Signature) P. Eng.

I understand that the "CERTIFICATION OF WORKS" is to be completed in this format and submitted with the "AS-BUILT" drawings.

Engineer
