
TABLE OF CONTENTS

<u>SECTION</u>	<u>DESCRIPTION</u>
1	General Conditions
2	General Design Requirements
3	Trenching, Backfilling and Restoration
4	Water A Design B Installation
5	Sanitary Sewer A Design B Installation
6	Storm Drain A Design B Installation
7	Streets A Design B Installation
8	Curbs and Sidewalks
9	Roadway Lighting
10	Concrete
11	Asphaltic Concrete Paving
Appendix A	Construction Inspection Checklist
Appendix B	Final Inspection Checklist
Appendix C	Certification of Design
Appendix D	Certification of Installed Works
Appendix E	Certification of Street Light Installation
Appendix F	Municipal Works Statistics
Appendix G	Municipal Services Card

STANDARD DRAWINGS

<u>SECTION</u>	<u>DESCRIPTION</u>
2	General Design Requirements
G1	Graphic Scale and Register Marks
G2	Standard Drawing Symbols and Abbreviations
G2A	Standard Drawing Symbols and Abbreviations
G5	Survey Monument - Flush Mounted
G6	Survey Monument - Box Type
G7	Survey Monument - Box Casting Detail
3	Trenching, Backfilling and Restoration
T1	Trench Details
T2	Sanitary & Storm Sewer in Common Trench
T3	Pavement Restoration
T4	Trench Dams
T4A	Trench Dams Drainage Collection Details
T4B	Trench Dams Drainage Collection Details
T5	Typical Lot Servicing Details
T6	Private Utilities Underground Electrical Common Trench Detail
T7	Private Utilities Underground Electrical Typical Service Box Location
4	Water Design and Installation
W1	Single Family Residential Water Service Connection
W1A	Single Family Residential Inside Water Meter Installation
W2	Below Grade Flushout Detail
W3	Above Grade Flushout Detail
W4	Thrust Block Details
W4A	Thrust Block Areas
W5	Heavy Duty Manhole Cover and Frame
W5A	Utility Chamber Manhole Frame, Ring & Cover
W6	Hydrant Connection - Type 1
W7	Hydrant Connection - Type 2
W8	Air Release Valve Assembly - Type 1
W9	Air Release Valve Assembly - Type 2
W10	Plastic Meter Box For 19 mm Dia. Services
W11	Concrete Meter Box For 19 mm Dia. Services
W12	Concrete Meter Box For 25 mm and 37 mm Dia. Services
W13	Typical Meter Chamber
W14	Gate Valve
W15	Fire / Domestic Water Meter - Piping Layout
W16	Domestic Water Meters (50 mm to 450 mm Piping Layout
W17	Fire Line Service Piping Layout

STANDARD DRAWINGS

<u>SECTION</u>	<u>DESCRIPTION</u>
5	Sanitary Sewer Design and Installation
S1	Manhole Benching Details for Sewer Mains
S2	Typical Manhole Details Standard Precast Type
S3	Typical Drop Manhole Details
S3A	Inside Drop Manhole
S4	Heavy Duty Manhole Cover and Frame
S4A	Utility Chamber Manhole Frame, Ring & Cover
S5	Sanitary and Storm Sewer Service Connection
S6	Driveway Service Box Installation
S7	Single Service Concrete Box
S8	Twin Service Concrete Box
S9	Cleanout Structure - Type 1
S10	Cleanout Structure - Type 2
S13	Sanitary Sewer Flow Curves
S14	Sanitary Sewer Flow Analysis - Calculation Sheet
6	Storm Drain Design and Installation
D1	Manhole Benching Details for Sewer Mains
D2	Typical Manhole Details Standard Precast Type
D2A	Precast Riser Manhole
D3	Typical Drop Manhole Details
D3A	Inside Drop Manhole
D4	Heavy Duty Manhole Cover and Frame
D4A	Utility Chamber Manhole Frame, Ring & Cover
D5	Sanitary and Storm Sewer Connection
D6	Driveway Service Box Installation
D7	Single Service Concrete Box
D8	Twin Service Concrete Box
D9	Cleanout Structure Type 1
D10	Cleanout Structure Type 2
D11	Typical Catch Basin with Type - 1 & Type 2 Grates
D12	Catch Basin Frame and Grate – Type 1
D12A	Catch Basin Frame and Grates –Type 2
D13	Side Inlet Catch Basin for Non Mountable Curbs – Type 3
D13A	Side Inlet Catch Basin Frame & Hood For Non Mountable Curbs–Type 3
D14	Ditch Inlet Catch Basin – Type 4
D14A	Frame and Grate for Ditch Inlet Catch Basin – Type 4
D15	Concrete Headwall for Pipe Inlets – Type 1
D15A	Concrete Headwall for Pipe Inlets – Type 2
D16	Concrete Headwall for Pipe Outlets
D17	Rainfall curves
D18	Time of Concentration Table
D19	Storm Sewer Flow Analysis Calculation Sheet

STANDARD DRAWINGS

<u>SECTION</u>	<u>DESCRIPTION</u>
7	Streets Design and Installation
R1	Downtown
R2	Urban Collector
R3	Rural/Industrial Collector
R4	Urban Local
R5	Rural/Industrial Local
R6	Lane
R7	Standard Cul-de-sac & Offset Cul-de-sac
R8	Rural/Industrial Cul-de-sac & Offset Cul-de-sac
R9	Statutory Right of Ways for Municipal Services
R10	Typical Driveway Grades
R11	Typical Sign Installations
8	Curbs and Sidewalks
C1	Mountable Curb and Gutter
C2	Non Mountable Monolithic Curb and Gutter
C3	Standard Curb for Traffic Islands & Medians
C4	Concrete Sidewalk Detail
C5	Sidewalk and Driveway Crossing for Non Mountable Curbs
C6	Pedestrian Sidewalk Ramp
C7	Walkway in 3.0 m Right – of - Way
C8	Walkway Barrier
C9	Sidewalk/Retaining Wall Handrail
C10	Stairway and Landing
C11	Stairway Handrail
C12	Fire Lane Collapsible Bollard
9	Roadway Lighting
L1	Trenching Detail for Electrical Conduit
L2	Street Light Luminaries
L3	Street Light/ Service Base
L4	Street Light Poles
L5	Control Schematic & Wiring Diagram for Roadway Lighting

APPENDIXES

- A Construction Inspection Checklist
- B Final Inspection Checklist
- C Certification of Design
- D Certification of Installed Works
- E Certification of Street Light Installation
- F Municipal Works Statistics
- G Municipal Services Card
